

“WHEN I DECIDED TO GO IT ALONE I WASN'T ON MY OWN, THANKS TO MOLLY MAID”

“I was a good organiser and used to using my own initiative, but running a franchise was still a big step into the unknown. Molly Maid made me feel part of the family - they gave me friendly advice and expert guidance whenever I needed it - and their professional approach to absolutely everything was very reassuring. They even suggested I contact other franchisees before committing, to get the views of someone who'd 'been there, done that.' Now I'm very well set up and wish I'd done it years ago!”

Molly Maid is one of the world's largest and longest-established domestic cleaning franchise companies. The Molly Maid brand is synonymous with quality, service and value.

Molly Maid carefully selects its franchisee partners who will manage teams of maids within an exclusive

territory providing high quality domestic cleaning.

We will provide thorough training, professional marketing, plus a business advisor allocated to each franchisee to give on-going support for the life of the franchise – so you're never out there on your own. Surprisingly, the initial outlay is low – less than £8,000.
